Website Rate Card

All prices in Ghana cedis · Accra, Ghana

2026.1 · VALID TO 31 DECEMBER 2026

Every price below is a starting point, not an invoice. We agree the final figure with you before any work begins, and **it does not move after that**. What you pay for is the site and the support around it — not storage you will never fill.

HOW MUCH IT MOVES

Motion is a layer, not a package

Pick any build above, then decide how much it animates. The uplift applies to the build price.

Clean — INCLUDED

Subtle transitions and tidy hover states. Calm, fast, and never in the way of the content.

Motion — +20%

Scroll reveals, micro-interactions and an animated hero. The site feels alive as you move through it.

Signature — +40%

Bespoke animation, custom illustration and built sequences. For brands whose site is the first impression.

INCLUDED IN EVERY BUILD, AT EVERY PRICE

Responsive, mobile-first design — Domain for one year — Hosting for one year — SSL certificate — Business email — Google Business Profile setup — WhatsApp order buttons — Every login handed to you

TERMS

What you agree to

Payment

Half to start, half on the day it goes live. No hidden charges between those two.

Revisions

The rounds listed with each tier are included. Design changes cost you nothing before the build starts.

What we need from you

Your logo if you have one, your photos, and the words for each page. If you do not have these, they are priced on the left.

Handover

Every login is yours — domain, hosting, email and analytics. The site stays yours if you leave us.

Year two onward, without a Care Plan

Domain and hosting renew at GHS 600 per year. That is the only recurring charge, and nothing renews without your say-so.
